

12 m = 120 cm  
10 m = 100 cm  
9 m = 90 cm  
6-8 m = 80 cm

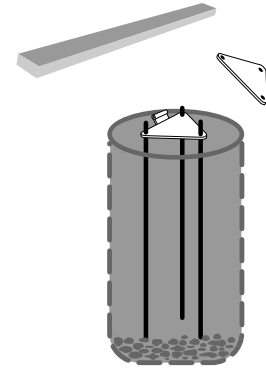

2

Fill the base with 5 cm of gravel

3

Place the mount on a board 2 cm above the edge of the hole. Fill with concrete.

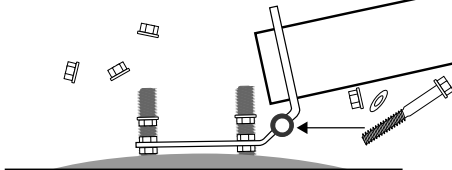

4

Let the concrete dry, then remove the board.

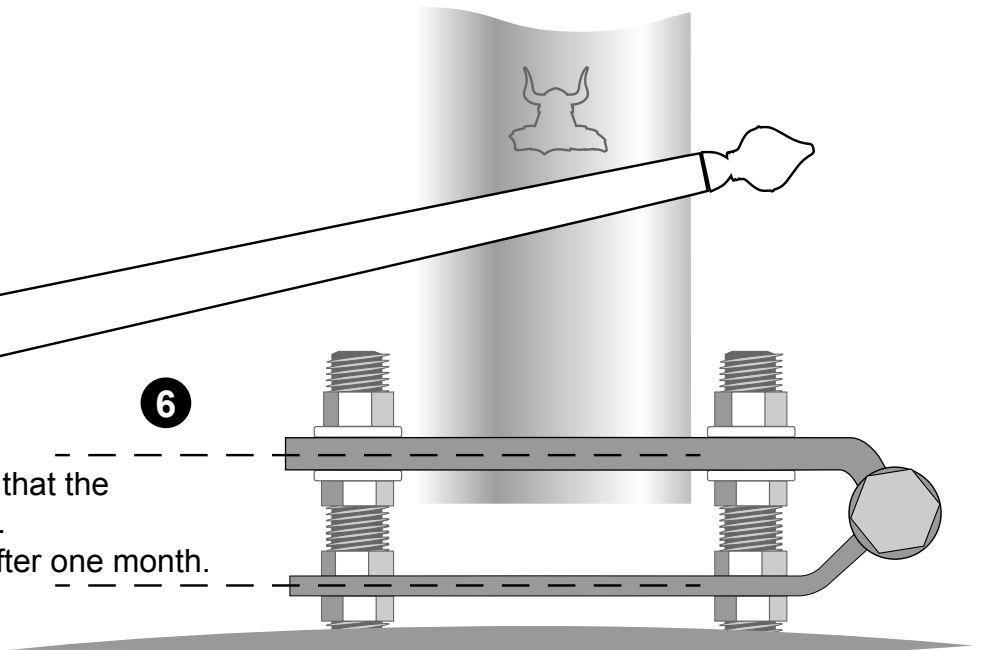

5

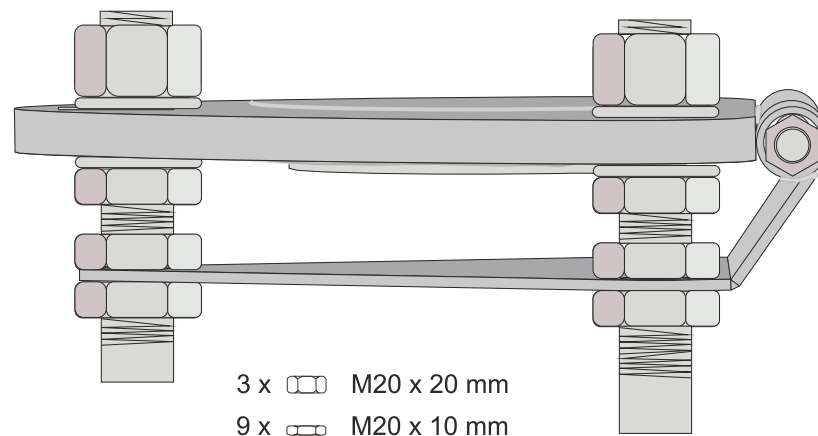

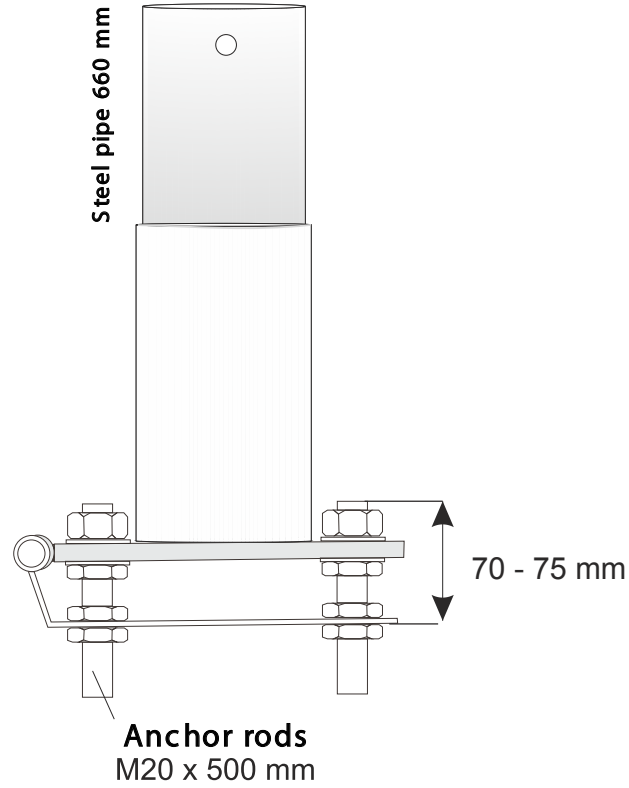

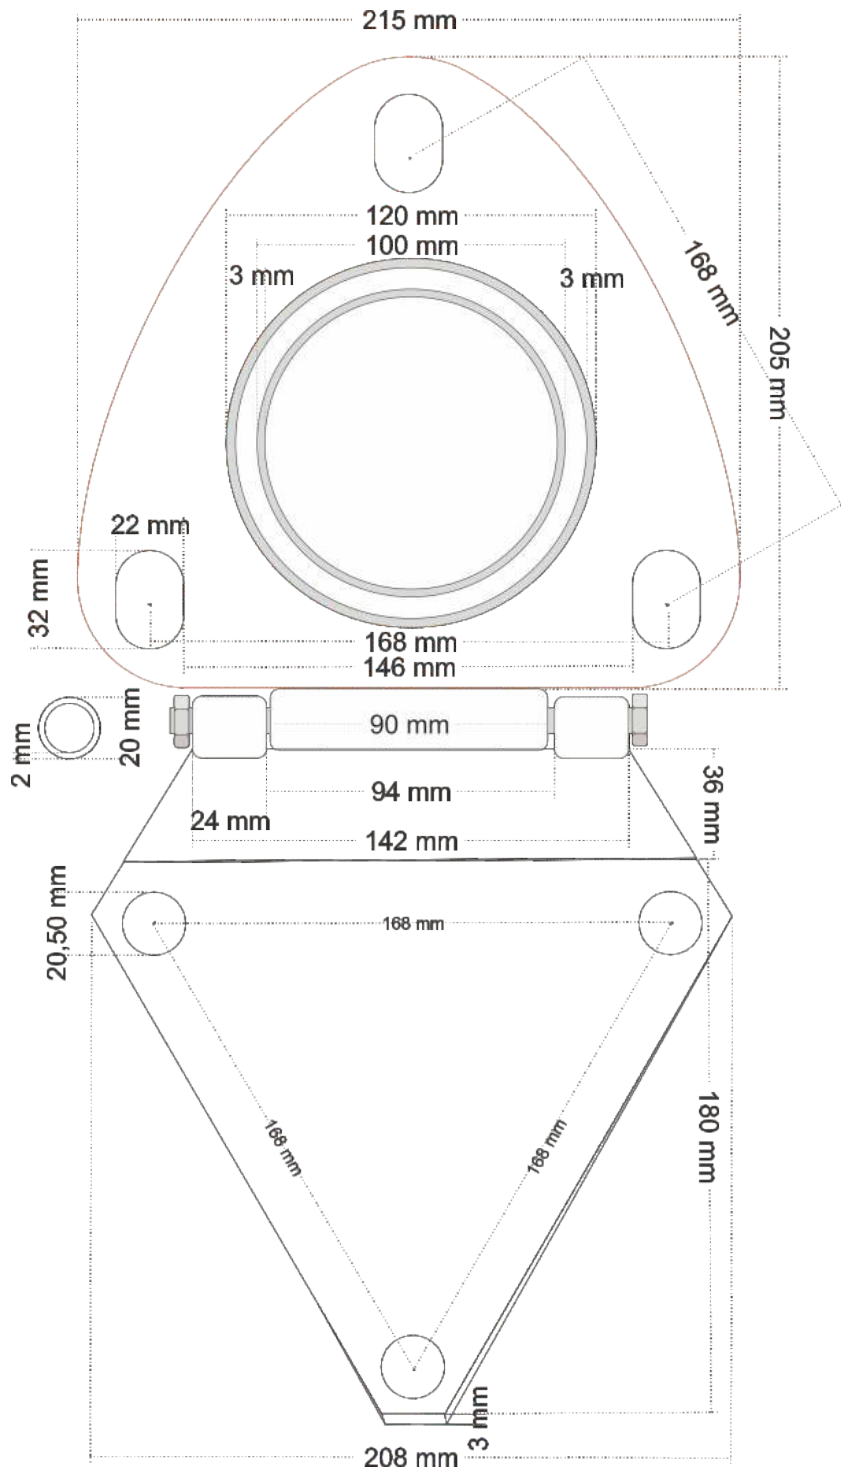

Attach the rod to the hingeplate, raise the flagpole and tighten the nuts.

6

Adjust the nuts so that the flagpole is straight. Tighten the nuts after one month.

- 3 x  M20 x 20 mm
- 9 x  M20 x 10 mm
- 6 x  M21 x 3,0 mm
- 3 x  M20 x 500 mm
